AGENDA ITEM #3 UPDATE ON EMERGENCY MANAGEMENT AND PREPAREDNESS AND HAZARDOUS MATERIALS PROGRAMS

Showing a PowerPoint presentation, Chuck Carter, Program Manager, reviewed the Emergency Management and Preparedness, and the Hazardous Materials Programs with the Council. He mentioned that the State of Florida Hazardous Materials Emergency Preparedness (HMEP) contract is used to plan and conduct training exercise scenarios. HMEP exercise scenarios are required to include a transportation component. An exercise scenario with the City of Lakeland was held earlier this year that involved a train derailment.

Mr. Carter stated that the Small Quantity Generators (SQG) of hazardous waste is a program that conducts inspections on 20% of the sites in each of the three counties' facilities each year for five years. The three counties are DeSoto, Hardee and Okeechobee. Highlands and Polk Counties operate their own SQG programs. Facilities inspected are those that create hazardous waste as a product or a by-product of their business, but are less hazardous than those monitored in the Hazardous Analysis (Ha) program.

Mr. Carter explained that the Hazards Analysis contract funds are used to conduct site visits of facilities that maintain onsite Extremely Hazardous Substances that are used in their daily business. This contract is for facility inspections in DeSoto, Hardee and Okeechobee Counties. The facilities that are inspected are mandated by the state.

The Council supports the Local Emergency Planning Committee (LEPC) which is made up of emergency responders from public and private agencies within the five county region. The group meets quarterly and is responsible for keeping the Hazardous Materials Emergency Plan for each county current. Discussion followed.
